Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product: AIM Global Credit Crawler Fund – A CHF

Manufacturer: LLB Fund Services AG

The fund is a OGAW of the umbrella funds (AFI Funds) launched in Liechtenstein. It is managed by LLB Fund Services AG (hereafter “we”).

Hints:

- A prospectus and semi-annual and annual reports are prepared for the umbrella fund, in which the individual sub-funds are presented separately.
- Because each sub-fund is a separate legal fund, the assets and liabilities of each sub-fund are legally separate; due to the segregation of the assets and liabilities of each sub-fund, there will be no impact on the respective investors.
- Shares in one sub-fund cannot be exchanged for shares in another sub-fund.

LLB Fund Services AG belongs to the Liechtensteinische Landesbank Aktiengesellschaft.

I. What is this product?

Type: The fund is a OGAW of the umbrella funds (AFI Funds) launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section “V. How long should I hold it and can I take my money out early?”. The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual circumstances occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: The investment objective of this sub-fund is to achieve long-term capital appreciation. To achieve this objective, the global bond market is screened, analyzed and monitored for opportunities and risks. The fund seeks to identify attractive bonds by assessing their quality, valuation, momentum, liquidity and other factors. At all times the sub-fund aims to be broadly diversified across issuers, industries, countries and regions. The Sub-Fund invests globally in bonds of all rating classes, the majority of which exhibit a minimum rating of B3, B- or B- from at least one of the three rating agencies S&P, Moodys or Fitch. The sub-fund is actively managed. The fund/subfund does not base its investments on a benchmark.

The depositary of the fund is Liechtensteinische Landesbank AG. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at retail investors who pursue the objective of general asset accumulation / asset optimisation and have a medium-term investment horizon. This product is a fund for investors with no or little knowledge and / or experience in financial products. The investor can bear losses up to the complete loss of the capital invested and does not attach any importance to capital protection.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class. This classification is based on the volatility of the products share price returns over 5 years. The value of investments can go down as well as up and you may not get back the full amount you invested. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the product manufacturer to pay you.

Other substantial risks: In addition, there are risks that are not included in the risk indicator. Comprehensive explanations can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 4 years Example Investment: CHF 10,000		If you exit after 1 year	If you exit after 4 years (Recommended holding period)
Minimum	You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 8,900	CHF 8,810
	Average return each year	-11.0 %	-3.1 %
Unfavourable	What you might get back after costs	CHF 8,900	CHF 9,480
	Average return each year	-11.0 %	-1.3 %
Moderate	What you might get back after costs	CHF 10,160	CHF 11,020
	Average return each year	1.6 %	2.5 %
Favourable	What you might get back after costs	CHF 10,850	CHF 11,650
	Average return each year	8.5 %	3.9 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could get back under extreme market conditions. The unfavourable scenario occurred when investing in the fund or the benchmark between Jan 2021 – Jan 2025. The moderate scenario occurred when investing in the fund or the benchmark between Jan 2018 – Jan 2022. The favourable scenario occurred when investing in the fund or the benchmark between Feb 2016 – Feb 2020.

III. What happens if LLB Fund Services AG is unable to pay out?

The default of LLB Fund Services AG has no direct impact on your payout, since the legal regulation stipulates that in the event of insolvency of LLB Fund Services AG, the special assets are not included in the insolvency estate, but remain independent.

IV. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 4 years
Total costs	CHF 203	CHF 535
Annual cost impact (*)	2.0 %	1.3 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.8 % before costs and 2.5 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

These figures include the maximum distribution fee that the person selling you the product may charge (1.0 % of amount invested / CHF 100).

This person will inform you of the actual distribution fee.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1.0 % of the amount you pay in when entering this investment. This is the maximum amount that you can be charged.	CHF 100
Exit costs	0.0 % of your investment before it is paid out to you.	CHF 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.9 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	CHF 90
Transaction costs	0.1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 10
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n.a.

V. How long should I hold it and can I take my money out early?

Recommended holding period: 4 years

This product has no minimum holding period. It is suitable for medium-term investments. You should therefore be prepared to remain invested with your investment for at least 4 years. However, you can return your investment on any Liechtenstein banking day and without penalty.
