Date (of preparation/last revision of the Key Information Document): September 3, 2025

You are about to purchase a product that is not simple and may be difficult to understand.

I. What is this product?

Type: The fund is a AIF launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section "V. How long should I hold it and can I take my money out early?". The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual circumstances occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: The AIF is a product pursuant to Article 9 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (Sustainable Finance Disclosure Regulation). So-called ESG criteria are non-financial considerations that are incorporated into the investment process of the fund on an ongoing basis, with a particular focus on social aspects. The fund aims to achieve a sustainable, long-term real appreciation of its assets and at the same time to contribute to the creation of wealth among the underprivileged population groups in developing and emerging countries by indirectly financing entrepreneurial activities in these countries. The fund pursues its purpose by investing its assets in local financial service providers - so-called microfinance institutions (MFIs). The fund is based on a structured investment process, which is based both on a quantitative and qualitative selection of successful or sustainably active MFIs and on broad country diversification. The fund invests in fixed or variable-interest investment instruments. The investment instruments have short (six to eighteen months) to medium (three to five years) maturities. The fund's investments have an average term of two to three years and are primarily denominated in US dollars. The fund seeks to invest in a sustainable manner.

The depositary of the fund is Liechtensteinische Landesbank AG. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at retail investors who pursue the objective of general asset accumulation / asset optimisation and have a medium-term investment horizon. This product is a fund for investors with no or little knowledge and / or experience in financial products. The investor can bear losses up to the complete loss of the capital invested and does not attach any importance to capital protection.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This classification is based on the volatility of the products share price returns over 5 years. The value of investments can go down as well as up and you may not get back the full amount you invested. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the product manufacturer to pay you.

Other substantial risks: In addition, there are risks that are not included in the risk indicator. Comprehensive explanations can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 2 years Example Investment: CHF 10,000		If you exit after 1 year	If you exit after 2 years (Recommended holding period)
Minimum	You could lose some or all of your investment.		
Stress	What you might get back after costs	CHF 9,810	CHF 9,840
	Average return each year	-1.9 %	-0.8 %
Unfavourable	What you might get back after costs	CHF 9,950	CHF 10,210
	Average return each year	-0.5 %	1.0 %
Moderate	What you might get back after costs	CHF 10,240	CHF 10,570
	Average return each year	2.4 %	2.8 %
Favourable	What you might get back after costs	CHF 10,730	CHF 11,120
	Average return each year	7.3 %	5.5 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could get back under extreme market conditions. The unfavourable scenario occurred when investing in the fund or the benchmark between Jun 2024 - Jun 2025. The moderate scenario occurred when investing in the fund or the benchmark between Sep 2019 - Sep 2021. The favourable scenario occurred when investing in the fund or the benchmark between Feb 2018 - Feb 2020.

III. What happens if LLB Fund Services AG is unable to pay out?

The default of LLB Fund Services AG has no direct impact on your payout, since the legal regulation stipulates that in the event of insolvency of LLB Fund Services AG, the special assets are not included in the insolvency estate, but remain independent.

IV. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested

	If you exit after 1 year	If you exit after 2 years
Total costs	CHF 200	CHF 362
Annual cost impact (*)	2.0 %	1.8 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6 % before costs and 2.8 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

These figures include the maximum distribution fee that the person selling you the product may charge (0.0 % of amount invested / CHF 0).

This person will inform you of the actual distribution fee.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0 % of the amount you pay in when entering this investment. This is the maximum amount that you can be charged.	CHF 0
Exit costs	0.5 % of your investment before it is paid out to you.	CHF 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.5 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	CHF 150
Transaction costs	0.0 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	CHF 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n.a.

V. How long should I hold it and can I take my money out early?

Recommended holding period: 2 years

This product has no minimum holding period. It is suitable for medium-term investments. You should therefore be prepared to remain invested with your investment for at least 2 years. However, you can return your investment on any Liechtenstein banking day and without penalty.

VI. How can I complain?

Complaints about this product, the conduct of the PRIIP manufacturer and/or any person selling or advising on the product, can be addressed in text form to LLB Fund Services AG, Äulestrasse 80, FL-9490 Vaduz, by e-mail to fundservices@llb.li, online via <https://www.llb.li/en/institutional/fund-services/llb-fund-services/investor-information/complaint-procedure> or contact your advisor or the person who sold you the product directly.

VII. Other relevant information

The legally required information on the past performance over the past 4 years (or a relevant shorter period) as well as monthly performance scenarios can be found on the website at: <https://quotes.llb.li/>.

Information on the Management Company's current remuneration policy is published on the internet at www.llb.li. It includes a description of the calculation methods applied to remunerations and other benefits granted to certain categories of employees as well as the identity of the person in charge of the allocation of remunerations and other benefits. If requested by the investor, the Management Company will provide the information in hard copy free of charge.
