

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Product: Red Stone Balanced Fund - CHF -

Manufacturer: LLB Fund Services AG

The fund is a OGAW of the umbrella funds (Red Stone Fund) launched in Liechtenstein. It is managed by LLB Fund Services AG (hereafter "we").

Hints:

- A prospectus and semi-annual and annual reports are prepared for the umbrella fund, in which the individual sub-funds are presented separately.
- Because each sub-fund is a separate legal fund, the assets and liabilities of each sub-fund are legally separate; due to the segregation of the assets and liabilities of each sub-fund, there will be no impact on the respective investors.
- Shares in one sub-fund cannot be exchanged for shares in another sub-fund.

LLB Fund Services AG belongs to the Liechtensteinische Landesbank Aktiengesellschaft.

ISIN: LI1293285808

Finanzmarktaufsicht Liechtenstein (FMA) is responsible for supervising LLB Fund Services AG in relation to this Key Information Document.

Date (of preparation/last revision of the Key Information Document): April 15, 2025

I. What is this product?

Type: The fund is a OGAW of the umbrella funds (Red Stone Fund) launched in Liechtenstein.

Term: The Fund does not have a pre-determined maturity, it is established for an indefinite period. For the recommended holding period, see section "V. How long should I hold it and can I take my money out early?". The Fund may be dissolved by resolution of LLB Fund Services AG. This is particularly the case if significant changes in the actual circumstances occur that justify dissolution. The Fund must be dissolved by operation of law if it falls below the minimum capitalisation required by law.

Objectives: The investment objective of the sub-fund is primarily the real preservation and long-term increase of capital through interest and dividend income as well as capital growth. This is an actively managed sub-fund without reference to a benchmark. No assurance can be given that the investment objective will be achieved. The sub-fund pursues a balanced investment strategy with the Swiss franc as the reference currency. The currency designation contained in the name of the sub-fund merely refers to the currency in which the net asset value of the sub-fund is calculated and not to the investment currency of the sub-fund. Investments are made in the currencies that are best suited to the performance of the sub-fund. Investments may be made worldwide, in all freely tradable currencies and in all economic sectors which, in the opinion of the Asset Manager, are particularly suitable for increasing the value of the sub-fund's assets. The sub-fund invests in accordance with the principle of risk diversification in a broadly diversified securities portfolio consisting of equities, bonds and other investments permitted within the scope of the investment regulations and investment restrictions set out herein. The sub-fund permanently invests at least 20% and no more than 70% of its assets worldwide directly or indirectly in equities or equity-like securities in all industries and sectors, including property shares. Furthermore, the sub-fund invests the remaining portion of its assets (at least 30% and no more than 80% worldwide) in liquidity or money market claims and direct or indirect investments in fixed or variable-interest debt securities or in financial instruments that are linked to the performance of precious metals but which exclude the right to physical delivery. The aim is to optimally utilise structural changes by means of dynamic asset allocation.

The depositary of the fund is Liechtensteinische Landesbank AG. The Prospectus and the current annual and semi-annual reports, the current unit prices and further information on the Fund can be found free of charge in the legally-binding language according to the Prospectus at www.llb.li.

Intended retail investor: The fund is aimed at retail investors who pursue the objective of general asset accumulation / asset optimisation and have a medium-term investment horizon. This product is a fund for investors with no or little knowledge and / or experience in financial products. The investor can bear losses up to the complete loss of the capital invested and does not attach any importance to capital protection.

II. What are the risks and what could I get in return?

Summary Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This classification is based on the volatility of the products share price returns over 5 years. The value of investments can go down as well as up and you may not get back the full amount you invested. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the product manufacturer to pay you.

Other substantial risks: In addition, there are risks that are not included in the risk indicator. Comprehensive explanations can be found in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product or a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Recommended holding period: 4 years Example Investment: CHF 10,000 | | If you exit after 1 year | If you exit after 4 years (Recommended holding period) |
|---|--|--------------------------|---|
| Minimum | You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | CHF 5,520 | CHF 5,090 |
| | Average return each year | -44.8 % | -15.5 % |
| Unfavourable | What you might get back after costs | CHF 8,230 | CHF 8,500 |
| | Average return each year | -17.7 % | -4.0 % |
| Moderate | What you might get back after costs | CHF 10,220 | CHF 13,320 |
| | Average return each year | 2.2 % | 7.4 % |
| Favourable | What you might get back after costs | CHF 13,540 | CHF 16,400 |
| | Average return each year | 35.4 % | 13.2 % |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you could get back under extreme market conditions. The unfavourable scenario occurred when investing in the fund or the benchmark between Dec 2021 – Apr 2025. The moderate scenario occurred when investing in the fund or the benchmark between Aug 2016 – Aug 2020. The favourable scenario occurred when investing in the fund or the benchmark between Feb 2016 – Feb 2020.

III. What happens if LLB Fund Services AG is unable to pay out?

The default of LLB Fund Services AG has no direct impact on your payout, since the legal regulation stipulates that in the event of insolvency of LLB Fund Services AG, the special assets are not included in the insolvency estate, but remain independent.

IV. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested

| | If you exit after 1 year | If you exit after 4 years |
|------------------------|--------------------------|---------------------------|
| Total costs | CHF 494 | CHF 1,214 |
| Annual cost impact (*) | 5.0 % | 2.9 % each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.3 % before costs and 7.4 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

These figures include the maximum distribution fee that the person selling you the product may charge (3.0 % of amount invested / CHF 300).

This person will inform you of the actual distribution fee.

Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | 3.0 % of the amount you pay in when entering this investment. This is the maximum amount that you can be charged. | CHF 300 |
| Exit costs | 0.0 % of your investment before it is paid out to you. | CHF 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.7 % of the value of your investment per year. This is an estimate based on actual costs over the last year. | CHF 170 |
| Transaction costs | 0.3 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | CHF 30 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | n.a. |

V. How long should I hold it and can I take my money out early?

Recommended holding period: 4 years

This product has no minimum holding period. It is suitable for medium-term investments. You should therefore be prepared to remain invested with your investment for at least 4 years. However, you can return your investment on any Liechtenstein banking day and without penalty.

VI. How can I complain?

Complaints about this product, the conduct of the PRIIP manufacturer and/or any person selling or advising on the product, can be addressed in text form to LLB Fund Services AG, Äulestrasse 80, FL-9490 Vaduz, by e-mail to fundservices@llb.li, online via <https://www.llb.li/en/institutional/fund-services/llb-fund-services/investor-information/complaint-procedure> or contact your advisor or the person who sold you the product directly.

VII. Other relevant information

For past performance information from previous years, see www.llb.li. A monthly updated publication of the calculations of previous performance scenarios can be found at <https://quotes.llb.li/>.

Information on the Management Company's current remuneration policy is published on the internet at www.llb.li. It includes a description of the calculation methods applied to remunerations and other benefits granted to certain categories of employees as well as the identity of the person in charge of the allocation of remunerations and other benefits. If requested by the investor, the Management Company will provide the information in hard copy free of charge.

This document is for information purposes only and does not constitute an offer or invitation to buy.
